

What I think of when I hear the words "Fremont County." The words Fremont County put an image of beautiful forests, deserts and rivers in my head.

The forests provide food for heat as well as beautiful scenery for county residents of all ages. My family and I enjoy going hiking and bringing down wood for the long winter months.

The deserts provide a recreational area and also a place to hunt. My family and I enjoy the privilege to go the Sand Dunes and sit by a fire at night. Our desert is also a big tourist attraction that accels our county's buisness greatly.

The rivers also provide a recreational area for boaters and fishers. My brothers and I go fishing for food and fun.

Now that, my friends and fellow countymen is what Fremont county means to me. Thank you for taking time to read my essay.
