

What Fremont County

Means to ME

There are many things I love about Fremont County. For example, I love how everyone is so friendly, even if they don't know you. Like if you are on a walk, almost every car waves at you.

I like our mountains surrounding us. They are perfect for camping, fun 4-wheeler rides, or a peaceful hike. I love our lakes and rivers. Every summer my family and I go floating the down the Snake River. If you haven't tried it, you ought to because there is beautiful scenery, you can sometimes see wildlife, and it is so much fun! But, if you don't like to float the river, the Ashton Reservoir is a perfect place to go water skiing or ride around in your boat.

I love how we get different weather. Like our summers are hot, not too hot just right. In winter, we get snow so we can go sledding and snowmobiling. Plus you can always count on a white Christmas.

I love how we have a lot of fun places to go, no matter the weather. In the summer, you can go play at the sanddunes or swimming in the Aston pool. If you can't decide whether to go swimming or play in the sand, I would suggest the sandbar because it has both!!

So in conclusion, if someone asked me what Fremont County means to me, I would tell them it is a friendly place, full of adventure, with beautiful surroundings, perfect seasons, and has something for everyone, from farming fields to mountains to rivers and lakes.
