

There have been a lot of changes in the Courthouse. As well as redoing the beautiful wood, some of the floors, the skylight and just doing a lot of modernizing, the rooms that some people remember to be the Clerk's office or the Sheriff's office are now known as something completely different. In the next few pages of pictures, you will see signs above the doors that say what used to be there in that room and what it is now. As each one approaches these rooms, I am sure that memories are brought back. How fun it was to take tours through the Courthouse on this special day and learn from some of the "older" people and hear some stories they had to tell! We were all very much enlightened. I am sure we are all very grateful to be apart of Fremont County and the history which it holds... past, present and future.
