**Shaun Bills RE: Ongoing Employee Wellness Program**

Mr. Bills reviewed the program that employees are able to access on the internet to track their exercise and calorie intake. He also discussed the types of education he could provide for different health issues. He explained how the Wellness Tracker works and how people can keep track of it on the internet program that was created. This program also keeps track of the calories that are consumed each day by entering the foods that are eaten. The commissioners will discuss this with the departments when they meet in a couple weeks and see if this is something that the employees will participate in. The commissioners also would like to see how the testing that will be done again in September goes. They will then decide if they are going to spend more money for programs that could be beneficial for the employee's health.
